

# Our Environmental Commitment

*Your choices matter, and we want to tell you about  
one of the most important reasons to choose us.*

## Our environmental policy is not just greenwashing.

Tom Dwyer Automotive is committed to the best environmental practices possible, and we've made this idea a fundamental part of our business. Here are some of the ways we work to minimize our environmental footprint...

- We are certified as an "Eco-logical Business" by the Portland Pollution Outreach Team.
- We recycle fanatically, including all office supplies, scrap metal, vehicle fluids, filters, aluminum cans, tires, batteries, aerosol cans, motor oil, and more. Used parts are returned for re-manufacture or re-use where possible.
- We consider the environmental impact of every product we use, from biodegradable cleaning supplies to non-aerosol brake cleaner to our solvent-free parts washer.
- Filtered water in our waiting area means fewer empty water bottles in landfills. Our re-usable rags and laundry service minimizes waste and water use.
- We offset carbon for all our shop operations from our shuttle van trips down to our vehicle test drives.
- Our courtesy shuttle uses E85 ethanol, a domestically produced blend of 85% ethanol and only 15% gasoline.
- Our innovative Tom Dwyer Automotive Carbon Neutral Program has offset over 1,400,000 pounds of carbon.
- We work with groups that promote sustainability, such as Bonneville Environmental Foundation, Bright Neighbor, 350.org, SOLV, Sustainable Business Network, Willamette Riverkeeper, and the League of Conservation Voters.
- We service all types of hybrid/electric vehicles, and we're one of the only shops servicing all-electric vehicles.

Choices matter, and Tom Dwyer Automotive's environmental commitment is just one of the many reasons to choose us.
